Fluff is the Stuff

A. Manager
Director of R&D Lab
Fluff Products Ltd
04 May 2016

To the EngD Director
School of Computer Science
University of St Andrews

Re: *EngD sponsorship for Mr N. U. Person, with Dr S. U. Pervisor as Industrial Supervisor*

I am happy to sponsor a Research Engineer on the *EngD Computer Science* programme at the University of St Andrews, subject to a contract and an intellectual property agreement. I have pleasure in writing this letter in support of applicant:

Ms N. U. Person

for the *EngD Computer Science* programme at the School of Computer Science, University of St Andrews. Ms Person is a new recruit to our R&D lab, and comes to us with a background in Electrical Engineering. Fluff Products Ltd intends to act as Industry Sponsor for Ms Person if she is admitted to the EngD programme.

I am also happy to recommend and give my support to Dr S. U. Pervisor to act in the role of Industrial Supervisor for Ms Person.

Dr Pervisor has not acted in the role of mentor to a new recruit before. So, as Director of the R&D Lab, I will provide oversight for the supervisory arrangement for the first year at least, with agreed review mechanisms to ensure that the role of the Industry Supervisor is being fulfilled, as per the "Responsibilities and Duties of an Industrial Supervisor" listed on the EngD web site.

Mr Person and Dr Pervisor will be located at our R&D facilities in St Andrews, Scotland.

Sincerely;

A. Manager
